(FINANCIAL INFORMATION OF THE BIDDERS)

Name of Applicant:

Information of audited financial statements for the last year to demonstrate the current soundness of the Bidder's financial position:

1. The Bidder's Net worth for the last year calculated as the difference between total assets and total liabilities should be positive.

2. Bidders, who meet the minimum qualification criteria, will be qualified only if their available bid capacity at the expected time of bidding is more than the total estimated cost of the works. The available bid capacity will be calculated as under:

Assessed Available Bid Capacity = (AxNx2-B) where

A=Maximum value of engineering works in respect of Projects executed in any one year during the last five years (updated to the price level of the year indicated in table below under note) taking into account the completed as well as works in progress. N= Number of years (i.e.,----- year) prescribed for completion of the works for which Bids are invited.

B= Financial liability of the bidder to be incurred for existing commitments and on- going works during the period of the subject contract.

To calculate the value of "A "
